# TERMS OF SALE

## PLEASE READ BEFORE BIDDING.

All bids are entered as received and lots distributed to the highest bidder without reserve. When two or more bids are the same, the first received gets the lot. When two or more unlimited bids on a certain lot are received, the first one received gets the lot at an advance of 5% over the highest bid.

When I receive your bids, I consider myself as your agent and buy the lot for you as much under your bids as the next highest bid will permit. I simply execute your bids for you as faithfully as if you had yourself been present at the sale.

## I CHARGE NO COMMISSION FOR EXECUTING BIDS.

Lots sold as catalogued. No lot is broken under any circumstances. Bid by number of lot and at SO MUCH PER PIECE. If there are ten pieces in a lot and you want to offer \$1.00 for the lot, make your bid 10c.

I guarantee all coins and notes to be genuine unless otherwise stated in the catalogue. This guarantee holds good indefinitely.

**TERMS:** The terms of auction sales are strictly cash. Parties unknown to me must send a deposit covering at least 25 per cent. of their bids or send satisfactory reference, otherwise they will not be accepted, as I cannot be expected to ship goods to parties whose good standing is not known to me.

Remittance should be made promptly in any way most convenient to yourself.

A neatly printed list of prices of this sale, showing amounts realized for each lot, will be sent for only 50c, **CASH WITH ORDER**. This is surely the cheapest and best method to keep posted on the prevailing prices of coins.

**PLEASE SEND IN YOUR BIDS EARLY.** All bids must be in on or before Wednesday, March 18th, 1914.

If you have any coins that you want to sell either at auction or private sale, write me for terms.

## NOTICE TO NEW BIDDERS.

Buying coins at auction sales is not the same as receiving coins on approval. The coins are bought for you on your order and you are of course expected to accept and pay promptly for them. Auction purchases are strictly net cash. Be careful in making your bids. Be sure that you bid for the lot you desire and at so much **PER PIECE**. Read the terms of sale before bidding.

## THE SIZE OF COINS AND MEDALS

## PREFACE

---

This is one sale, I believe, which requires no introduction and certainly deserves the patronage of everyone who receives the catalogue, as the variety of coins and currency offered is certainly varied enough to please the numismatic taste of nearly every collector.

It would require another "young catalogue" to mention here all the lots that deserve to be called attention to. BUT—

If you are interested in U. S. gold, you have the opportunity here to take a shot at some real rare and choice pieces, among which you will note gold dollars of '64, '65 and '75, together with other rare dates. In \$10.00 gold, you'll find the 1795, 1804 and 1876 Philadelphia mint and 1907 wire edge. A proof \$4.00 piece. A good representation of Pioneer gold, including a fine \$50.00 slug.

In U. S. Silver, there is almost everything from 3c to the Dollar, including half dollars of 1796, 1797; brilliant proof 1796 quarter, etc.

In Fractional Currency, all issues are represented and nearly complete, with the rare perforated notes as well as the red backs with printed and rare autograph signatures; specimen notes, and early U. S. currency.

In the foreign section, I believe that the Foreign Crowns, especially those of Eric XIV, Alexander Farnese, Cromwell, Elizabeth and the Commonwealth, etc., are worthy of special mention.

And if ancient Greek coins appeal to you, your attention is respectfully directed to the fine Syracuse Tetradrachms offered in Mr. Armstrong's collection.

So, all in all, I believe you'll admit that my invitation for your bids at this sale is justified. I want you to bid on every lot that appeals to you. Bid as much as you are willing to pay and I guarantee to buy for you as cheaply as the next highest bidder will permit. Above all, please remember that I guarantee satisfaction. I respect the opinions of all collectors, and if anything you purchase of me is not entirely satisfactory, give me the chance, and I'll promptly and cheerfully adjust it to your entire satisfaction.

Trusting to be favored with your bids for this sale, I am,

Cordially yours,

# A Word About Coin Auction Sales.

---

In the February issue of the NUMISMATIC MONTHLY, a portion of my advertisement read as follows:

## “The Successful Sale of Coins at Auction is as much a Science as is Numismatics Itself

“The gentlemen who follow Numismatics as a profession all feel—naturally—that their auction methods and service is the ‘best.’ But it is for you—the prospective seller—to determine for yourself which, according to *your* judgment, is the best service offered.”

Mr. Trowbridge, in his first letter opening negotiations for the sale of his collection, wrote me as follows:

“Having decided to sell my entire collection of about 2000 pieces, and believing you are the man to get me the best results for them, I write for your terms for cataloging and selling my collection.”

Five days after Mr. Trowbridge wrote the above letter, he advised me that he was preparing to forward his entire collection to me.

I have great confidence in my methods and business. I believe it to be the best. I do not ask you to believe it, but I do ask you to let me send you, whenever you think of selling your collection, detailed descriptions of my methods of doing business and also to show you why the prices realized at my sales compare most favorably with all markets, year in and year out regardless of “hard times.” Will also show you just why my sales are so widely and liberally patronized. This and much more will be gladly sent you without slightest cost of obligation to you.

Always glad to hear from you.

B. MAX MEHL.

Liberal amounts of cash advanced on auction consignments.

If you have friends whom you desire to interest in numismatics or to whom you want to show the historical importance and charms of the numismatic science, have them read in the March number of the Numismatic Monthly.

## “WHY I COLLECT COINS”

BY MR. HARRY E. MONTGOMERY

Mr. Montgomery is not only a close student of numismatics, but is a prominent attorney of Buffalo and an author of several important works. “Why I Collect Coins” is the best defense and argument for the numismatic science that has come to our attention for some time.

*Sample copies of the March Numismatic Monthly ten cents each. Subscription by the year, TWELVE NUMBERS, (to begin with current issue) only fifty cents, less than five cents per month. (Foreign \$1.00).*
